My approach to supervision is based on collaboration and social justice.

- **Collaboration** – Let's decide what is needed together, e.g. case conceptualization, treatment planning, crisis management, theory education, client advocacy, etc.
 - **Social justice** – Everything is political. There is no neutral. Let's be honest with ourselves and each other about the values we hold and what we stand up for. I am personally guided by my commitment to equity, transparency, respect, and the inclusion of diverse identities, perspectives, experiences, cultures, and communities.
